Fire Safety Instructor

About This Handout

This handout is designed for use by **Fire Safety Instructors** as a delegate resource. It covers the key knowledge areas, legislation, and practical skills required for the course. Delegates may retain this handout for future reference.

Learning Outcomes

By the end of this course, delegates will be able to:

- Understand fire behaviour and the fire triangle
- Identify different classes of fire and appropriate extinguishers
- Conduct a fire risk assessment
- Understand fire legislation and employer responsibilities
- Deliver effective fire safety training to staff

Key Legislation & Standards

Practical Skills & Key Points
